

# Getting Started with Unity:

Download Unity: <https://store.unity.com/download>

Download UnityHub first and then the latest version off the hub.

Download VS Code: <https://code.visualstudio.com/>

Once downloaded, get the Unity Code Snippets Module:

<https://marketplace.visualstudio.com/items?itemName=kleber-swf.unity-code-snippets>

\*be sure to change your script editor in Unity by going to:

Edit>Preferences>External Tools>External Script Editor

Set it to: Visual Studio Code

## How to get good:

### Unity Docs:
